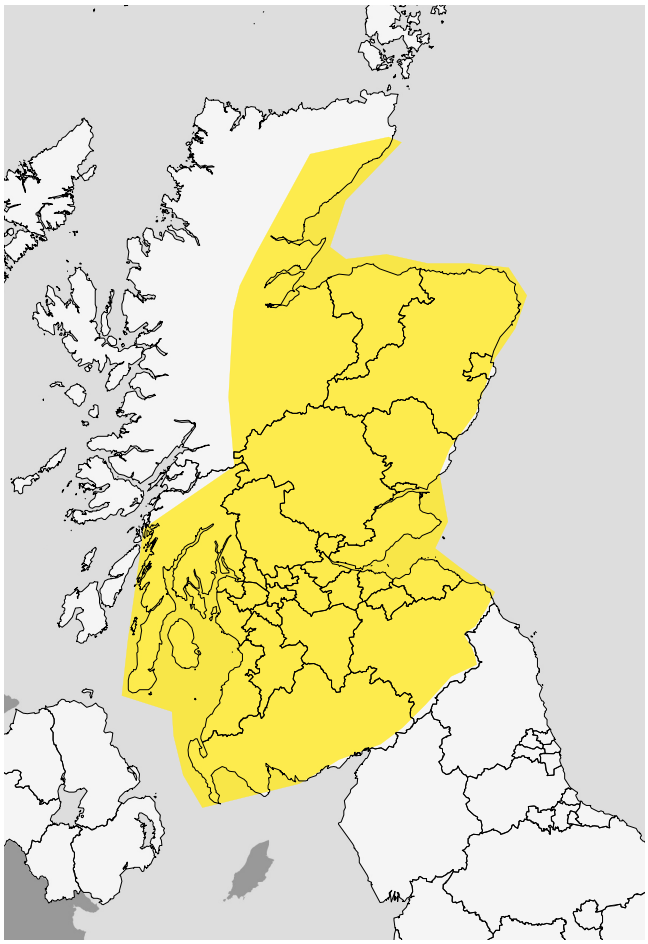
Yellow warning
Rain

Between
12:00 Wed 22 May 2024 and
18:00 Thu 23 May 2024



Heavy rain may produce some flooding and transport disruption.

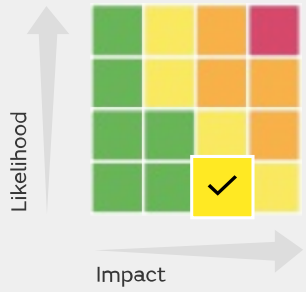
What to expect

- There is a small chance that homes and businesses could be flooded, causing damage to some buildings
- There is a small chance of fast flowing or deep floodwater causing danger to life
- Where flooding occurs, there is a slight chance of delays or cancellations to train and bus services
- Spray and flooding could lead to difficult driving conditions and some road closures
- There is a small chance that some communities will become cut off by flooded roads
- There is a slight chance of power cuts and loss of other services to some homes and businesses

Further details

An area of heavy rain is expected to move northwest across Scotland from Wednesday afternoon, with rain most persistent across northern and eastern facing high ground. For many areas, rain should gradually become more showery in nature during Thursday, but at the same time, some heavy, slow-moving downpours may develop across parts of southern and eastern Scotland.

20-40 mm may accumulate quite widely through this period, but in excess of 60 mm is quite possible over some northern and eastern facing high ground.



✓ Very low likelihood of medium impacts

Yellow warning
Rain

Between
12:00 Wed 22 May 2024 and
18:00 Thu 23 May 2024

Further Details (continued)

Locally strong and gusty winds through Wednesday evening and early on Thursday may exacerbate any impacts from the rain.

What should I do?

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area

Reason for update

Warning area expanded westwards to include the western Central Belt, Kintyre and Arran.
